80+ channels of TV for FREE

Connect your TV to the antenna

1. **Connect a coaxial cable (aka RG6 cable) to the wall outlet.**

2. **Connect the other end of the coaxial cable to the ANTENNA/CABLE IN port on the back of your TV.**

3. **Scan for channels.**
   NOTE: The process to scan channels is specific to your brand of TV. Please refer to the TV manufacturer guide or search for "channel scan" and the brand of your TV (ex. Vizio channel scan). For general instructions: Change TV input to TV/Antenna. Select TV Menu, navigate to Settings > Tuner and ENTER. In Tuner Settings, select and enter "Auto Channel Scan."

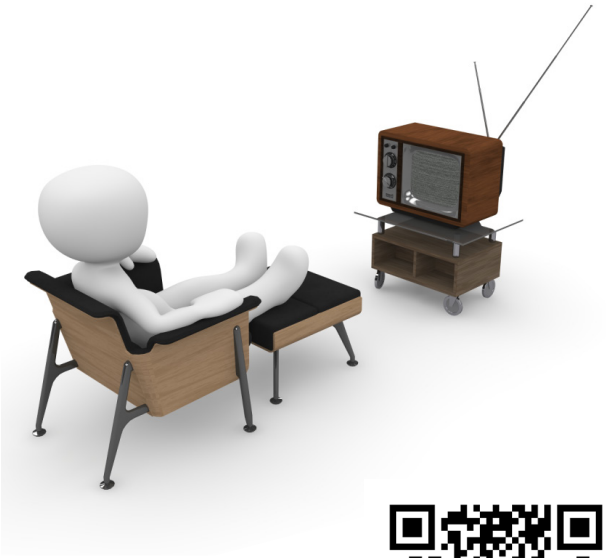
#1 Most Important Tip for Cutting the Cord

You get the benefit of watching ~80 channels of local network TV for free because of the provided antenna in your building. Instead of paying for expensive cable bundles, choose a micro-bundle of cable channels that suits your needs for as low as $7/month. Add FREE ad-supported TV (F.A.S.T.) services to get hundreds of additional channels.



Top 3 Most Helpful Tips for Streaming TV

1. **Use a Streaming Media Player (SMP).** Streaming media players perform better than smart TVs for streaming. Plus, they are more energy efficient.
2. **Save on Streaming Services.** Sports and local channels are the most expensive to stream because the provider charges extra fees for those channels. Use our streaming channel selector to help you save on streaming.
3. **Avoid stacking.** With all the streaming trials available, it is easy to stack multiple subscriptions for the full year. Most streaming services can be paused or cancelled without penalty - use this to your advantage and save money throughout the year.
